Quality of Registration & Hospitality

Average Rating: 4.9 (*Same as 2018*)

Consensus: Registration and check-in were fast and easy. Attendees would like pastries in the morning and more lunch options.

Comments:

Quality of Keynote

Average Rating: 4.53 (*-.07 from 2018*)

Consensus: Lecture was delivered well and had solid data. The audience loved Dr. Subrahmanyam's presentation style and well-researched commentary. Some attendees noted they would have liked a few more practical tips for the classroom/home.

Comments:

Tech Generation (Jon Lasser)

Average Rating: 4.82 (+0.2 from 2018)

Consensus: The audience was very engaged by Dr. Lasser. They were able to take practical tips from the presentation, and felt the lecture complemented the keynote lecture.

Comments:

Social Media/Self vs. Selfie (Cynthia Diaz de Leon)

Average Rating: 4.16

Consensus: Good ideas with a lot of information to take back to homes & classrooms. Many attendees felt this was a solid refresher of their knowledge.

Comments:

Game-Based Learning (Sherita Love)

Average Rating: 4.36

Consensus: Interactive, engaging, and fun presentation. Some attendees noted that they still believe video games are harmful to children.

Comments:

STEAM (Ellen Barnett)

Average Rating: 3.80

Consensus: Very nice and engaging presenter with fun, hands-on activities. However, tech issues prevented attendees from realizing the full benefits of the presentation.

Comments:

ADHD & Medication (Steven Pliszka)

Average Rating: 4.5 (+0.15 from 2018)

Consensus: Very informative and interesting. Some attendees recommended including information about education/counseling-based strategies for helping students with ADHD.

Comments:

Marketable Tech Skills (Scott Crenshaw)

Average Rating: 4.82

Consensus: Interesting and exciting information. Many attendees noted that the information was scary, and that it made them want to take action.

Comments:

Instructional Technology (Matthew Patty)

Average Rating: 4.88

Consensus: This was a favorite of many attendees. They loved the hands-on presentation and the fact that they walked away with many tools to use in the classroom.

Comments:

Dyslexia & Tech (Julie Hanson)

Average Rating: 4.67

Consensus: Amazing resources and information. Attendees loved Mrs. Hanson's presentation style, and appreciated that they walked away with information they could use.

Comments:

Education Tech & You (Roland Rios)

Average Rating: 4.75

Consensus: This was an engaging, practical, and applicable presentation. Felt they could truly use this information in their classrooms, especially for elementary-aged children.

Comments:

A word cloud containing the following words: ideas, info, outstanding, good, Great, use, presentation, classroom, tech, informative, and presentation.

Ethics Panel

Average Rating: 4.9 (+0.05 from 2018)

Consensus: Great conversation and topics. Attendees were very engaged and entertained by the lively discussion.

Comments:

A word cloud containing the following words: presentation, discussion, interactive, Great, and engaging.

Was the cost appropriate?

Yes: 171 No: 1

Will you attend again?

Yes: 166 No: 2

Rating in terms of satisfaction:

Average Rating: 4.7 (Same as 2018)

Rating in terms of knowledge gained:

Average Rating: 4.65 (+0.05 from 2018)

Rating in terms of skills gained:

Average Rating: 4.48 (-0.02 from 2018)

How has the Symposium helped you?

- Helped me think a lot about how I can help my child and students utilize tech and become more independent.
 - Reminded me to limit my phone use around my child.
 - Offered resources to use in my classroom.
 - It gave me great ideas to incorporate technology in my class.
 - I can use these findings and facts to educate and assist parents.
 - Helped me realize that as a parent, I'm moving in the right direction.
-

What would you like to see in future presentations?

- Classroom Behavior Management
 - Anxiety
 - Emotional resilience
 - LD-specific themes
 - Stress Management (For teachers/counselors and for students)
 - Higher education transition
 - More dyslexia presenters
 - Inclusive classrooms
 - More interaction in sessions.
 - Roundtable discussions.
-

Additional Comments:

- Thank you for providing educational opportunities for parents and educators.
- Please expand lunch options.
- Topics were timely.
- Thank you for keeping it affordable.
- Very qualified speakers.
- Scholarships should be offered for low income parents.
- So glad I came! Gets better and better every year.
