2022

## **Mr. Steve Yocham's Note**

This year has been special for our Fine Arts Department. We had an Art Celebration Night for our Art students, a Theatrical Performance Night, and a Digital Media Night. Each celebration highlighted the work and creativity of our WSSA artists.

The Art Celebration Night featured the art pieces from Lower, Middle, and Upper School. Art pieces included drawings, painting, ceramics and clays, silk screens, and other different media. The Advanced Art students' portfolios were on display and were highlighted at the event. The Arts night really captured the progression of art from beginning to advanced students.

This year's Drama class put on the first major play on our new stage. The class performed "The War of the Worlds," by H.G. Wells. The play is based on the original 1938 radio broadcast. Scenes were recreated to give a picturesque visual of the broadcast. All of the actors did amazing with two seniors, Paige Truss and Sophia Fitch, playing the major roles in the play. The show was a huge success.

The Digital Media Night showcased students photography, Digital Media I projects (Photoshop), and Digital Media II video projects. Student videos and animations were the focus of the night and was anchored by a newscast skit. The skit was hilarious and showed the acting talents of our students. This event really celebrated the creative minds of the Winston Digital Media students.

The Winston administration, faculty, and staff are continuously impressed by the creativity of all of the student artists in our community. We are pleased to present their work in this year's Freedom Arts Magazine and cannot wait to see all of the fantastic work they are sure to produce in the future!

I am from San Antonio, the city of Texas. I am from the sounds of loud barks in the morning and the taps of paws on my wood floor. I am from the shadow of the cotton that shields my eyes from the early sun, the bouncing of stripped leather on the ground and the golden fur that greets me every morning. I am from a mother that is smart and determined, a father that saves lives and helps them, and a big sister that is strong but gentle and warm. I am made of strength, sports, patience, safety, kindness, and wisdom. I am the loose paper and ink on my desk, I am the long grass that flows when the wind blows, I am the red rose that holds thorns.

I am from my mother  
She made me unashamed  
Together her and I do so much  
Most of all she teaches me  
How to take up space

I am unashamed  
I am not sorry for my belly laughs or my nose  
I take up space  
And I like it

I am from my father  
He made me headstrong  
Together he and I do so much  
Most of all he teaches me  
How to stand up to the world

I am headstrong  
I won't let silly things cut me deeply  
I stand up to the world  
And I like it

*I am from the Alamo City  
I am from the sounds of crying, singing, yelling and  
laughing  
I am from stained rugs, family photos, creaky stairs, and  
purple walls  
I am from the smell and taste of my yiayia's carefully-  
crafted dishes  
I am from hard working parents, playful siblings, and  
soft black cats  
I am made of patience, boredom, empathy, and  
hypocrisy  
I am traumatized, I am enlightened*

**I am from not one place but many homes & moves. The place where I stay is Texas, but I come from Callie to.**

**I am from the sounds of encouragement, laughter, and music that makes me move.**

**I am from the window that casts light on the things I love to do. The desk with paint and scuffs filled with memories through.**

**I am from a family that is always found outside. With a brother who makes me smile, and a mother who helps me thrive.**

**I am made of A passion that always seems to run. I am from delicious foods that are always made from love.**

**I am a child that can never stay in place, but no matter where I go at home is my Comfort space.**

*Sofia Negron*

I am from Bayamón, Puerto Rico and San Antonio, Texas.

I am from the sounds of Bachata music and loud chattering.

I am from beautiful beaches and tall green mountains.

I am from the smell and taste of guava fruit and many seasonings.

I am from a father that who makes me laugh and a brother that yells to much.

I am made of emotion, thoughtfulness and bravery.

I am a kind hardworking young woman.
