

The Winston School San Antonio
33rd Annual Learning Symposium

January 20, 2023

FEATURING KEYNOTE SPEAKER

Marc Brackett, Ph.D.

The Winston School San Antonio and its Educational Medical Scientific Advisory Council (EMSAC) are proud to host this annual educational event that provides the community with access to cutting-edge research and tools to help educate students with learning differences.

The Symposium allows us to extend Winston's reach by providing important information to parents, education professionals, and others from across the state. Each year, the event features a nationally renowned keynote speaker partnered with local professionals who are experts in their field. Past speakers have included; Abigail A. Baird, Ph.D., Carol Tolman, Ph.D., Kaveri Subrahmanyam, Ph.D., Guinevere Eden, Ph.D., Tina Payne Bryson, Ph.D., and John J. Ratey, M.D.

Marc Brackett, Ph.D., author of *Permission To Feel*, is founding director of the Yale Center for Emotional Intelligence and a professor in the Child Study Center, Yale School of Medicine at Yale University. His grant-funded research focuses on the role of emotions in learning, decision-making, creativity, relationship quality, well-being, performance, and organizational climate; the measurement of emotional intelligence; and the influence of emotional intelligence training on key life outcomes. Marc has published over 150 scholarly articles, received numerous awards, and is featured regularly in popular media outlets such as the New York Times, Good Morning America, CBS This Morning, and The Today Show.

He also is on the board of directors for the Collaborative for Academic, Social, and Emotional Learning (CASEL). Marc is the lead developer of RULER, a systemic, evidence-based approach to social and emotional learning that has been adopted by over 3,000 public, charter, and independent preschool through high schools across the United States and in other countries, including Australia, China, England, Italy, Mexico, and Spain. Research shows that RULER boosts academic performance, decreases bullying, enriches classroom climates, reduces teacher stress and burnout, and enhances teacher instructional practices.

Marc regularly consults with large companies on best practices for integrating the principles of emotional intelligence into training and product design. He is co-founder of Oji Life Lab, a corporate learning firm that develops innovative digital learning systems for emotional intelligence. Marc speaks to tens of thousands of people each year and has been the keynote speaker at over 500 conferences around the world, including the White House, U.S. Departments of Education, Justice, and Defense, the Surgeon General's office, the New York Times, Microsoft, Google, Facebook, and Twitter, as well as dozens of education conferences.

*******EXCITING ANNOUNCEMENT*******

We invite you to be a part of the excitement! The Winston School San Antonio will be announcing its launch of the Center for Neurodiversity at this year's Learning Symposium. The Center for Neurodiversity will offer ADHD coaching, testing, and executive function organization skills (including tutoring) as a service for the community of San Antonio and surrounding areas.

SPONSORSHIP OPPORTUNITIES

The success of The Winston School San Antonio's Annual Learning Symposium would not be possible without the generosity of our Sponsors. Your support helps cover certain event-related expenses while providing you the opportunity to promote, advertise, and market your businesses. We are deeply grateful for the generosity shown by the community in this continued effort to educate others regarding the teaching of students with learning differences.
